

Rise Up

[blessthefall](#)

Keep your eye focused this time.
Keep us in front of your sights.
I've waited long for this
now it's our time for bliss
I just hope we have the time.

I stand broken.
Please god hear my cries.
He does every time.

How many times
have you watched me fall,
just to smile.
I've been through thick and thin
We've struggled through.
Now we smile.

So we're here now.
Just be ready.
Brace yourself cuz
we're not leaving.

Keep your eye focused this time.
Keep us in front of your sights.
I've waited long for this
our time to shine,
I just hope we have the time.

I stand broken.
Please god hear my cries.
He does every time.

Help us get out. x2

Out into the open.

Help us grow.
Rise up, Rise up. x4

I stand broken.

Please god hear my cries.

He does every time. x2

He does every time.

Keep your eye focused this time.

Keep us in front of your sights.

I've waited long for this

now it's our time for bliss

I just hope we have the time.

I stand broken.

Please god hear my cries.

He does every time.
