

# Metamorphosis

[Hilary Duff](#)

I've been so wrapped up in my warm cocoon  
But something's happening, things are changing soon  
I'm pushing the edge, feeling it crack  
And once I get out, there's no turning back  
Watching the butterfly go towards the sun  
I wonder what I will become[Chorus]  
Metamorphosis  
Whatever this is  
Whatever I'm going through  
Come on and give me a kiss  
Come on, I insist  
I'll be something new  
A metamorphosis  
Things are different now when I walk by  
You start to sweat and you don't know why  
It gets me nervous but it makes me calm  
To see life all around me moving on  
Watching the butterfly go towards the sun  
I wonder what I will become[Chorus]  
Every day is a transformation  
Every day is a new sensation  
Alteration, modification  
An incarnation, celebration  
Every day is a new equation  
Every day is a revelation  
Information, Anticipation  
Onto another destination[Chorus]
