# Marry Me

## [Dean Martin](#)

I'm coming back back home to you
And I know now for sure that my wandering day is through
I've been around most every place
But all that I ever see is your loving face
When I come back darling say you'll marry me
I wanna spend my life with you
A little band of gold for everyone to see
I'll tell the world when you'll marry me
Well out of mind is out of sight
Didn't know that your love would be watchin' me each night
But I have fun with someone new
Now that I know it's your love that's so true
When I come back darling say you'll marry me
When I come back darling say you'll marry me
