

# Sledgehammer

## Fifth Harmony

If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer I don't admit it  
I play it cool  
But every minute  
That I'm with you I feel the fever and I won't lie  
I break a sweat  
My body's telling  
All the secrets I ain't told you yet (Oh oh)  
I struggle to contain (whoa oh)  
The love that's in my veins (oh oh)  
And how it circulates (oh oh) If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer You're taken over the beat of my body  
You just don't let up, don't let up  
You're taken over the beat of my body  
But you lift me up, lift me up  
If you take my pulse right now  
It would feel just like a sledgehammer So close together  
So far apart  
You're turning me on  
And my fire's waitin' for your spark (Oh oh)  
I struggle to contain (whoa oh)  
The love that's in my veins (oh oh)  
And how it circulates (oh oh) If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer You're taken over the beat of my body  
You just don't let up, don't let up  
You're taken over the beat of my body  
But you lift me up, lift me up  
If you take my pulse right now  
It would feel just like a sledgehammer The truth is out  
No stopping now  
I'm getting closer  
I've had enough  
Undress my love

I'm coming over If you take my pulse right now  
It would feel just like a sledgehammer, oh  
And if you take my pulse right now  
It would feel just like a sledgehammer, hammer, oh If you take my pulse If you could take my pulse right now  
It would feel just like a sledgehammer  
If you could feel my heart beat now  
It would hit you like a sledgehammer You're taken over the beat of my body  
You just don't let up, don't let up  
You're taken over the beat of my body  
But you lift me up, lift me up  
If you take my pulse right now  
It would feel just like a sledgehammer
