With All My Heart

Clem Snide

Give back what you took from me
You whispered in your sleep
And who but me would write it down
So now its mine to keepIf you call me, I'll be there
And man, I'll get there, fast
With tender words I've memorized
About how nothing lastsLa, la, la, la
Laa, laa, laa, laa
Laa, laa, laa, laa, laa
LaaWhen you feel me drift away
And that we've grown apart
And I'll dedicate this song to you
And sing with all my heartAnd sing with all my heart
And sing with all my heart
And sing with all my heart
And sing with all my heart
