

My Devotion

Dinah Washington

My devotion
Is endless and deep as the ocean
And like a star shining from afar
Remains forever the sameOh, my devotion
Is not just a sudden emotion
It will be constantly burning
And your love will kindle the flameWhat a sweet beginning
To the dream I had planned
All I own is yours alone
Your wish is my commandAnd this sensation
Was never a mere fascination
Here in my heart, one sweet day, it started
Then with time improved my devotion to you
