

Present For A Day

Trial Kennedy

How can I? [x4]I'm about to find
I fell behind
Shy, I'm kind, I find
Karma's a lieIn my past what died
I'm punished for? I try!How can I?I'm present for a day, a present for a day
What took so long, that's wrong
It's never gonna be the sameDon't regret, what's been said
Hold your head, don't regretI feel as swell, a sense that time will pay
I'm present for a day for a dayGonna get me down
Head is all around
Confident for want itStuck and tired too
Everyday is new
Confident for want it
