Between Friends and Enemies

Shame-On-U

perplexity ruins my life
how could it come so far, maybe it was your fault
the people around me are chocking me
please help me to win this fightthis foolishness i live my life with
is killing me and it's not finished
get me out of here am i just selfish
get me out of here i just can't stand itchoose who you want to be
decide between friend or enemyperplexity ruins my live
i know why it came so far, you know now it was your fault
i'm choking myself and those around me
i know now how to win this fight
