

Whisky Story

Example

Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied
Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied
Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied Who is this staying over? I can't recall her name
She lies there on the sofa every morning like Lorraine
Her waistline gets a rub, retrace our night of fun
These constant slap-dash flashbacks of our (date night down the pub)
I hear somebody leaving, somebody heaving, somebody barely breathing
It's hard to remember where it descended, started as the quietest evening
I don't wanna live in this drama, I can't keep playing this game
But the Friday night delights outweigh the Sunday morning pain, let's do it again (I said) Oh darling, let's stay
up all night
Drinking whisky, telling stories, I can keep you satisfied
Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied
Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied She's still here staying over, still can't recall her name
She lies here on the sofa every morning like Lorraine
We start to feel the love, another little night of fun
These constant slap-dash flashbacks of our (date night down the pub)
The girl is attached so I'm heading out the back door
Past the bloke with the smokes and the slack jaw
So fit, they all think she's an actor
(What is her name? What is her name?)
Hop on that train, it's the weekend sagas
Should've stopped but we've gone too far now
Don't stop, yeah we've gone too far now
Can't stop, yeah we've gone too far now (One more time, let's go) Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied (satisfied) (Are you ready? One more time
Everybody in the building) Yo, stepped to the bar, purchased a beverage
In the morning, sure of brain hemorrhage
Shot of tequila, soda, vodka
Got a couple ladies on my radar
Used to be rucks down at Oceana
Then we did pub crawls, caused palaver
Now we stay awake tryna make car's race
In the hope that we see ma~ana I can keep you satisfied, I can keep you satisfied

I can keep you satisfied, I can keep you satisfied Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied
Oh darling, let's stay up all night
Drinking whisky, telling stories, I can keep you satisfied
