War on Machines

Blitzen Trapper

I'm going home
Like a tiger in the rain
My blood is drippin' but I'm bringing you with deadly veign
Salty ocean but my tears will bring me home again
I'm coming at you
kill the love of a brother or friendSo don't worry
the weather's making war on machines
another night
burning out like a fireI'm gonna catch you by the tail and teach you how to live
There was an empty river awaiting for the levee to giveChorusSo don't you worry darlin about the things you got
cuz what you're not
just toss it to the windI'm going home
Like a tiger in the rain
My body's freezin but it's bound to make you whole again
River's winding around the mountains heading for the bend
A rushing water fall will never rest -ChorusI'm gonna catch you by the tail
and teach you how to live
There wasn't an answer but I'm ready for the love that you give
