

Bad Signal (Xilent Radio Edit)

Hadouken!

Chorus:

You don't even love me
You just leave me hanging on
(Did you give me a bad signal?)

You don't even love me
You just leave me hanging on
(Did you give me a bad signal?)

Leave me hanging on

Leave me hanging on

Leave me hanging on

Why did we go wrong? It's been thinking it's ever too late
I didn't realize my heart can break so easy.

More days passing in grey
with my timeline I pop your face

No, no advocations babe,
but I know it's still the text you erased
Cause in my mind you are trending
In a way that my heart is still pending
See they're on my new speed
Don't leave me your voice mail, please!

We can poison your .
seems like this contract is suspended
From the signal you are sending
got a feeling this is ending! Chorus:

You don't even love me
You just leave me hanging on
(Did you give me a bad signal?)

You don't even love me
You just leave me hanging on
(Did you give me a bad signal?)

Leave me hanging on

Leave me hanging on

Leave me hanging on

(did you give me a bad signal?)

Why did we go wrong? 3 a.m, welcome... and I say yes!

For me important to keep that ...SMS

I'm foolish when I get pissed,

wake up... you get the...

I want my heart, I won't risk to the gold

I love... next list
Cause in my mind you are trending
In a way that my heart is still pending
See I'm on my new speed
Don't leave me your voice mail, please!
We can poison your .
seems like this contract is suspended
From the signal you are sending
got a feeling this is ending!
