

Feels Like The End Of The World

[Rita Lynch](#)

It was a night of torment
a night that I could Forget
When I learned that passion
didn't get what I expect
I get rage that tears right through my solitude
And I fall in love with someone
I never shouldBut don't forsake me
be my lover
My faith is shaken
make me suffer
When time on trust is so relentless
It was never enough
and it's making no senseAnd it feels like the end of the world
And it feels like the end of the worldLet the night eclipse the pain
like a secret kept
Like a chance to be my worst
and to be my best
I was out of control it was so romantic
It was filling my head with the same old panic
I was struck by your merciless beauty
I was humbled by the tears in your eyesAnd it feels like the end of the world
And it feels like the end of the worldCrying, crying all night
Wishing, time was
on my side
And regret, torment
I am afraid
Once there was an altar
now it's a cageYou got to keep it a secret
that will never get told
Don't leave me, don't leave me
no, never go
Crying, crying all night
Crying, crying all night
