

# Monster Closet

## Two Hours Traffic

The monster closet  
That's where I stay now  
I let my fear get in the way  
So don't you cross it  
Don't you cross that line  
Deal with yourself while you've still got time  
The hideous creatures are in my ears  
The hideous whispers are in my ears  
They've been coming in loud and clear  
The monster closet  
Is spitting out black smoke  
It can't be taken lightly, it's not a joke  
Don't you dare follow  
Don't follow me across that divide  
You can't enjoy yourself if you're terrified I won't listen  
I can't believe them anymore  
I won't listen  
I let their words fall on the floor  
I won't listen  
But I know they're there  
So baby beware  
Baby beware  
The hideous creatures  
The hideous whispers  
The hideous creatures are in my ears  
The hideous whispers are in my ears  
But I won't listen anymore
