

Useful Servants

Les Trois Tetons

Gotta get up early in the morning
Gotta get to the mean old place
Gonna get there without any warning
They're gonna hear what I have to say
Can't sleep at night it's driving me out of my mind
Call that number on
the phone
Get a ticket on the board
Just sit down and take your time
And everything gonna be alright
Can't sleep at night it's driving me out of my mind
But you'll never get an
answer man
To the questions in your head
See them going up and down the stairs
Lookin busy talkin to their friends
Hurry up and open your eyes
Fill up the bottle and stop those lies
Can't sleep at night it's driving me out of my mind
Useful servants with no
face
Work for the palace's sake
Each one filed and bound to serve
Rules and dispositions
Orders and impositions
You'd better not have objections
Walk the corridors alone
With thousands, on your own
Can't sleep at night it's driving me out of my mind
I light a cigarette
My thoughts they scare me to death
Nothing left do to
