

Sex Games

Case

I know you're lying all alone
Waiting for my call
To tell me that your body's craving me
Well the phone's not enough tonight, let's make this reality
We can do the things that you don't get to do
'Cause you lay all alone
Just let me sit here and watch you to strip
For me 'cause I know I get you off
Is it too late to come on over?
And play sex games
Is it too late to slide on over?
And play sex games
Sex games
Sex games
You know it's funny how you try
To hide your crazy sex drive
I must admit I wanna play
Your body pretty mama till the night becomes the middle of the day
We can do the things that you don't get to do
'Cause you lay all alone
Just let me sit here and watch you to strip
For me 'cause I know I get you off
Is it too late to come on over?

And play sex games
Is it too late to slide on over?
And play sex games
Is it too late to come on over?
And play sex games
Is it too late to slide on over?
And play sex games
Sex games
Sex games
Sex games
We can do the things that you don't get to do
'Cause you lay all alone
Just let me sit here and watch you to strip
For me 'cause I know I get you off
Is it too late to come on over?

And play sex games
Is it too late to slide on over?
And play sex games
Is it too late to come on over?
And play sex games
Is it too late to slide on over?
And play sex games
