Te necesito

CaribeÃ±os

If it is the rain of every day
That has increased its level
The music has not the same
Effect that used to have before
Maybe I've learned so much
In so little and so short time
That I don't even know what language I speak
Or what's my position in this game of life
I feel like I've lost all forces now
To jump and grab the sun
And no matter how much I try
I can't listen to my own voice
I don't know if I've lived ten thousand days
Or one day ten thousand times
And I add you to my history
Wanting to change, what I've lost for something better
I need you, I really need you, my love
Wherever you are now, I need all your love

I need you, I really need you, my love
'Cuz you are part of me, I need you right here
'Cuz I can't live without you, I haven't learned it
And I feel lost like I'm lost
As a needle in the middle of the sea
As the moving sands I submerge
Among my loneliness
I don't know if I have lived ten thousand days
Or one day ten thousand times
And I add you to my history
Wanting to change what I've lost for something better
I need you, I really need you, my love
Wherever you are now, I need all your love
I need you, I really need you, my love
'Cuz you are part of me, I need you right here
'Cuz I can't live without you, I haven't learned it
I need you, I need you, I need you
