The Last Straw

Warrant

I read the news today
that you are going your own way today
broken glass against my wall
shout . always wanted all
you're gonna see some day
you can't play with life this way
it will judge it will bite
it will cut you in a bite
chew you up until you got it right
that's right
your song is un new
your words are so untrue
I lost my patience in dealing with you
that's the last straw
no more blood for you to drawn
that's the last straw
I am not here to take your .
that's the last straw
just a picture in the wall
you are taking everything
you put it all away
that's the last straw
now I found my way

you can get the hell away
broken dreams and ruin face
run over everything
that's in your way
your song is so un new
your words are so untrue
I lost my patience in dealing with you
that's the last straw
no more blood for you to drawn
that's the last straw
I am not here to take your .
that's the last straw
just a picture in the wall
to . I had to give
never out for you

this is the way to live/leave
I am closing the door
that's the last straw
no more blood for you to drawn
that's the last straw
I am not here to take your .
that's the last straw
just a picture in the wall
