Battlestar

Harmonic 313

Yo, I'm a Battlestar Knight like I'm Jedi
Rough to the touch but I'm sharper than the gleam in your eye
Galactic Battlestar like I'm ready
Ready for the one, two, check, get steady, on your marks setYour best to throw your hands high, heads to the sky
Keep your eyes peeled, listen for the sign
A trip stage walk wire, I bring fire till I'm done
Yo, 'cause there can only be the oneHow many times does it sound like this?
Here we come again, the microphone specialists
Action time, take back the track
Rewind, sing it for me one more timeIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands upIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands upI lead the packs like Bruce Wayne leads Da Batz
Rocking top hats with my verbal attacks, yo when I raps
Boogie down, can you hear the bell tower ring?
When you're time traveling from the funk that I bringFly wit me, I'll take you higher
When I'm walking over fire, come on follow the messiah
I run, jump, skips over battleships
Doing lyrical back flips on the stage that I ripsHow many times does it sound like this?
Here we come again, the microphone specialists
Action time, take back the track
Rewind, sing it for me one more timeIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands upIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands upHow many times does it sound like this?
Here we come again, the microphone specialists
Action time, take back the track
Rewind, sing it for me one more timeIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands upIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want

Put your hands up, get em' up, put your hands upIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands upIf you feel the force, throw your hands to the sky
Put your hands up, get em' up, put your hands up
And if you wanna jump, we can give you what you want
Put your hands up, get em' up, put your hands up
