

# Tired Heart

## Bleach

I haven't felt good in months  
The well has run dry, all at once  
The habits come easy but they're so hard to break  
I really need to hear, to hear You say  
Peace be still I am with you  
Rest in me for one more night  
Peace be still I am with you  
Replace this tired heart with mine  
So I'll sing songs of life  
For all these broken hearts just like mine  
And I'll lay down all this pride  
So I can hear You, You whisper, it's all right  
Peace be still I am with you  
Rest in me for one more night  
Peace be still I am with you  
Replace this tired heart with mine
