

Rill Rill (Stylust Beats Remix)

Sleigh Bells

Have a heart, have a heart, have a heart
Sixteen six six six like the pentagon
We are the river flow
And you can never know
You're just a weatherman
We make the wind blow Keep thinking about every straight face yes
Wonder what your boyfriend thinks about your braces
What about them
I'm all about them
Six such straight As
Cut em in the bathroom So this is it then?
You're here to win friends
Click click saddle up see you on the moon then
And all our old friends
Pick up their phones then
Ring ring call them up
Tell them about the new trends Have a heart, have a heart, have a heart
Sixteen six six six and we fell apart
We form a tarot pack
And I'm aware of that
But we could fist fight drunk like the parent trap Keep thinking about every straight face yes
Wonder what your boyfriend thinks about your braces
We never blink see
And you can see me
We fell asleep in the middle of the fury So this is it then?
You're here to win friends
Click click saddle up see you on the moon then
And all our old friends
Pick up their phones then
Ring ring call them up
Tell them about the new trends So this is it then?
You're here to win friends
Click click saddle up see you on the moon then
And all our old friends
Pick up their phones then
Ring ring call them up
Tell them about the new trends Have a heart, have a heart, have a heart
Sixteen six six six like the pentagon
We are the river flow

And you can never know
You're just a weatherman
We make the wind blow Keep thinking about every straight face yes
Wonder what your boyfriend thinks about your braces
What about them
I'm all about them
Six such straight As
Cut em in the bathroom So this is it then?
You're here to win friends
Click click saddle up see you on the moon then
And all our old friends
Pick up their phones then
Ring ring call them up
Tell them about the new trends So this is it then?
You're here to win friends
Click click saddle up see you on the moon then
And all our old friends
Pick up their phones then
Ring ring call them up
Tell them about the new trends
