Love Is the Reason

Graham Nash

Now the old days are gone
What you gonna do from here?
When you find the strength to carry on
Dont you know you got nothing to fear?Flying in the fast lane and burning down
Turning down the highway to you
Tell you, Id do anything just to be where you are
Your love is the reason, I made it this farNow the young days are going past
Can you make it to the end of the line?
Just hold onto your dreams and hope they last
Dont you know you got nothing but time?Flying in the fast lane and burning down
Turning down the highway to you
I tell you, Id do anything just to be where you are
Your love is the reason I made it this farLove is the reason
Love is the reason
Love is the reason
ReasonLove is the reason
Love is the reason
Love is the reason
