

# Too Far Gone

## The Answer

You don't know, you can't know, just who I am  
You don't know, you can't know, just who I am You say you gotta' name and a number  
Well we're gonna' find you anyway, yeah  
Communication's lost throughout the land  
Oh, you offer me your guilty hand Because you're too far gone with the money you spent  
Take a stab at a war, you work for the government Too far gone  
You're too far gone, I say  
You're too far gone  
But you keep pushing harder and harder Think you got a vote from the people  
Now you've got to fight for you're right to stay, ooh, yeah you do  
Disillusion can't connect the world  
I can't believe in your fucking law, no more Because you're too far gone with the money you've spent  
Take a stab at war, you're working for the government Too far gone  
You're too far gone, I say  
You're too far gone  
But you keep pushing harder and harder You take the free from the people  
I guess you got the human disease  
You stand tall you look strong  
But you're taking the free out of me  
Yeah, out of me And it's not exactly hard to see You don't know, you can't know, just who I am  
You don't know, you can't know, just who I am You're too far gone  
You're too far gone, I say  
You're too far gone  
But you keep pushing harder and harder, yeah  
Oh, oh, oh  
Oh, oh, oh, oh, ooh
