# Soilborn

## Killswitch Engage

Time will not stand still
Today is the day, the day of salvation
Living for more than just
A synthetic force fed existence
This is my disposition
I will strive for the truth
Time will not stand still
Today is the day, the day of salvation
Living for more than just
A synthetic force fed existence
This is my disposition
I will strive for integrity
Time will not stand still
We are the soilborn

We are the children
Soilborn
Washed in blood because we are blind
We must not take this life for granted
In this everlasting thirst
To maintain vitality
This is my disposition
I will strive for a rebirth
We are the soilborn
Soilborn
Today is the day of salvation
Today is the day of salvation
[Incomprehensible]
