Forever Young

N-Sync

Forever young
Forever young
Forever young
Forever youngForever young
Forever young
Forever young
(Forever and ever and ever and ever)
Forever youngLet us live eternally
We can reach our destiny
We will feast in harmony as one
Forever young
(Forever, forever, forever)Though they teach us sacrifice
(Sacrifice)
We will never compromise
(Forever young)
We are here until our work is done
(Forever, forever, forever)Forever young
Forever young
Forever young
Forever youngForever young
Forever young
Forever young
(Forever and ever and ever and ever)
Forever youngWhatever may come falling down
Will never break our solid ground
A million hours until the game is won
Forever young
(Forever, forever, forever)Until we've learned what love can bring
Well, our immortal voice will ring
(Forever young)
And through the clouds we'll always find the sun
(Forever, forever, forever)Forever young
Forever young
Forever young
Forever youngForever young
Forever young
Forever young
(Forever and ever and ever and ever)
Forever youngBaby, yeah

We're the future of the world
With love let's take our stand
For all that we believe
Forever, ever young
Forever young(Forever young)
Forever young, foreverForever young
Forever young
Forever young
Forever youngForever young
Forever young

(Forever and ever and ever and ever)
