

No Seeds

Goose

I smoke that Miami dade crippy and that Arizona icky
cause my hum bolt stickys for that one pull quickie
yeah I hit grape ape and the devils blue
met the super jack, green crack and elvis too

sensi skunk number four, that uptown raw
Dominican haze we blazed from the botanical store
got the butterscotch Hawaiian and the juicy fruit lemon
New York sour diesel and some northern lights seven
with the red hairs on it, and lookin deeper
itâ€™s the backyard boogie woogie Brooklyn creeper
medicinal secret sauce, white smurf, psycho chronic
and that maui wowie, honalulu hydroponic

I wanna truck full a BC buds, with no stems
for Jack Hermer, mary jane and all of my friends
gimmie orange crush, bog berry, OG kush
and some chocolate ty stick from the bushâ€™

(Hook: x2)

Aint nothin in the world like weed thats why Iâ€™m smokin on a blunt, puffin on a joint lightin up a bowl no seeds
no seeds that ganja's all I want, its really all I need ainâ€™t nuthin in the world like weed.

The buddah the ganja the indo the Kong nâ€™ the cess
the Phillies and Dutches the papers the bong is the best
yeah Iâ€™m into Cali mist, green burns clean
but theres nothin like that old school G13

gimme pokeberry, pure kush, blueberry bud
and that grapefruit sativa someone grew in the mud
I want the early girl shiva and the purple flower
with the cat piss, hash plant, and turtle power
I tok the crystal champagne, the bubonic, supersonic
Holland hope, white widow, big blue chronic
from the delta nine, romulan, and Afghan cross
a little pussy kush, sweet tooth, strawberry cough

give me the super silver, citrus and the kryptonite freeze
that fuzzy wuzzy indica from Amsterdam seeds

I want the four way, Cinderella, great white shark
Jamaican lambs breath, Columbian darkâ€

(Hook: x2)

Aint nothin in the world like weed thats why Iâ€™m smokin on a blunt, puffin on a joint lightin up a bowl no seeds
no seeds that ganja's all I want, its really all I need ainâ€™t nuthin in the world like weed.
