

Who's to Blame?

A Global Threat

What makes a killer?
Now that's a bore
What makes you scream?
You're being ignored
If your hand are bloody
Then so are mine We all want freedom
When we're confined
Who's to blame?
Who's to blame?
What's the fucking difference
Does it matter, who's to blame? Scrutinized or trivialized
The end result's the same
The world is going
Down the fucking drain
These things happen every day
Buildings burn
Kids are blown away You think we're safe here
Privileged from birth?
(America)
We're our own victims
On planet Earth
Down the fucking drain
