Right for Me

MBC

I got plans tonight
And you, you know what I like
And you're approachin' me right
I gotta make sure it's right for me
I got plans tonight
And you, you know what I like
And you're approachin' me right
But you gotta work that thing right for me
Little baby, with the sun dress on
Lookin' so damn right you're wrong
Make me wanna write my own little song for you
The way the thing just wiggle in the air
Turn around and then you flip your hair
I could think of a couple positions for you
You're wastin' no time talkin' to me
Must be something you want me to see
Baby girl, don't mind me if I do
So take the stage and show me what you got
Feelin' lucky, let me touch your spot
Might be leavin' with me before the night is through
I got plans tonight
And you, you know what I like
And you're approachin' me right
I gotta make sure it's right for me
I got plans tonight
And you, you know what I like
And you're approachin' me right
But you gotta work that thing right for me
Your body's saying things, I ain't never heard
You did the shake, shake and I kinda went berserk
Gotta give it to you girl, you're one of a kind
When you took my hand up so calm
Touched it to your cherry lip balm
A million nasty things went through my mind
So baby, tell me, what you're doin' later on?
'Cause I'm thinkin' me and you could get along
Baby girl, don't mind me if I do
So take the stage and show me what you got
Feelin' lucky, let me touch your spot

Might be leavin' with me before the night is through
I got plans tonight
And you, you know what I like
And you're approachin' me right
I gotta make sure it's right for me
I got plans tonight
And you, you know what I like
And you're approachin' me right
But you gotta work that thing right for me
Yeah, Bubba, come stumblin' in
Get up huntin' Betty with Justin and them
We must be the fliest of Southerner men
That's your girl, well, buddy, don't fumble it then
You better get her, I'm totally into my zone
Come on girl, close your eyes, pretend it's your home
I will be puttin' my signature on
That thing, I don't even wanna finish the song, let's go
I'm gettin' discouraged with her
Too late now we're friends, I surely prefer
Listen to every word that I slur
Other dudes be huggin' and nourishin' her, not me
I bet you remember the night
Good ol' Bubba K came into her life
Test the water let me know if the temperature right
Thank you, ma'am, it's certainly been a delight, uh huh
I got plans tonight
And you, you know what I like
And you're approachin' me right
I gotta make sure it's right for me
I got plans tonight
And you, you know what I like
And you're approachin' me right
But you gotta work that thing right for me
I got plans tonight
And you, you know what I like
And you're approachin' me right
But I gotta make sure it's right for me
I got plans tonight
And you, you know what I like
And you're approachin' me right
But you gotta work that thing right for me
So right for me
Hey, hey, so right for me
You so right for me
