Tune Me Out

MU330

turn it on turn it on and tune me out
it's so romantic
you and me and your tv
we made dinner with candles
bagles with lax
and we watched cops
i think i forgot
what your eyes look like
when they're not reflecting 90210
turn it on and tune me out
you don't need intimacy
turn it on and tune me out
you've got big screen tv
we sat hand in hand
i watched you watch your tv
you fell asleep to baywatch
mitch saved babes as i watched the clock
i wonder are you dreaming
and should i keep believing
do i mean more to you than
so much more to you than magnum
