Make It Right

Lisa Stansfield

(Make it right)
(Make it right)You've been on my mind
'Cause the last words I said
Felt so wrong, so unkind
No one's to blame
But somewhere along the way
I know that something's changedWhat was said
And what was done
Is not the way of love
Just look what we've becomeChorus:
Feel me touch you tenderly
I'm makin' an apology
Please hold me close tonight
(Make it right)
Can we try to love once more
And make it like it was before
I need you by my side(Make it right)
(Make it right)As we close our eyes
Can you hear me prayin'
How can lovers be so blind
It hurts me so, just don't know
That we could fall again
Help me understandCan we forgive
Can we compromise
Just believe that we can
Leave it all behind
We can get to where
We feel good inside
Open up our hearts
And keep this love aliveChorus:
Feel me touch you tenderly
I'm makin' an apology
Please hold me close tonight
(Make it right)
Can we try to love once more
And make it like it was before
I need you by my side(Make it right)
(Make it right)
Ooh make it right for me, babe

(Make it right)(Are we gonna) Make it right
(We can see it) See it in our eyes
(Can we do it) Do you wanna try
(Don't you know I)
I'll always love you, baby
(Give a listen)
Listen to the words I'm sayin'
(Tell you that it's)
It's only love we're makin'
(All you gotta) OohChorus:
Feel me touch you tenderly
I'm makin' an apology
Please hold me close tonight
(Make it right)
Can we try to love once more
And make it like it was before
I need you by my side(Make it right)
I'm touchin' you so tenderly
(Please hold me close tonight)
Never let me go (Make it right)
Can we try to love once more
And make it like it was before
I need you by my side
(Make it right)Chorus:
Feel me touch you tenderly
I'm makin' an apology
Please hold me close tonight
(Make it right)
Can we try to love once more
And make it like it was before
I need you by my sideMake it right
