

# Italians Do It Better

Alesha Dixon

Let's get creative  
Thinking you could be my Romeo tonight  
I bet you wanna taste it  
I got what you've been looking for  
Come with me, alright Let's get creative  
Think of all the things we'd like to do and say  
To get syncopated  
Body close to body till harmony They say Italians do it better, Italians do it better  
They say Italians do it better  
You proved them wrong, you do it better Because everything I want I get  
And baby, baby, yeah you're next, you bet  
Everything I want I get  
Tell me if you can handle it Slow down, I think I love this baby  
Throw down, don't keep me waiting  
All night I know you want this baby  
Playing around, hear what I'm saying They say Italians do it better, Italians do it better  
They say Italians do it better  
You proved them wrong, you do it better Because everything I want I get  
And baby, baby, yeah you're next, you bet  
Everything I want I get  
Tell me if you can handle it I guess every part of me says yes  
And baby I don't ever want regrets, you bet  
Everything I want I get  
Tell me if you can handle it 'Cause lipstick's all about the kissing  
Baby feel this, ain't got time for hugging  
Come and take it, want you more than ever  
Make me feel alive, feel the vibe Italians do it better, Italians do it better  
They say Italians do it better  
You proved them wrong, you do it better Because everything I want I get  
And baby, baby, yeah, you're next, you bet  
Everything I want I get  
Tell me if you can handle it I guess every part of me says yes  
And baby I don't ever want regrets, you bet  
Everything I want I get  
Tell me if you can handle it Oh, oh, I'm a girl who can't say no  
When it's you who says let's go  
Keep the smile upon my face  
Don't let it go because it feels good Oh, oh, I'm a girl who can't say no  
When it's you who says let's go
