

# Self Centered Blues

## Natural Child

Daddy came down with a broken back  
I don't believe he's gonna make it back  
Momma went looking for something to do  
And I'm left here with self-centered blues  
They don't seem to go awayShould've saved my money when I was young  
But I just kept looking for a bit of fun  
Then the days went by and the years just flew  
And I'm all caught in self-centered blues  
They don't seem to go awayI sure made a lot of friends  
And I watched a lot of good things come to an end  
Without no water those seeds never grew  
And I'm left here with self-centered bluesI had a friend, he lost track  
He turned a corner and he didn't look back  
Didn't check the signs, didn't see the road  
Now the self-centered blues is all he knows  
They don't seem to go away
