

Penelope

Saosin

Oh Penelope
Are you filled with air
Swallowed oxygen
That makes you float up?
Its a travesty
Will your lungs swell?
It's depressing me
To see you struggle
Oh Penelope
Are you filled with air
Swallowed oxygen
That makes you float up?
its a travesty
Will your lungs swell?
It's depressing me
To see you struggle
I'm treading water with my oars
Glass galleons anchored, oceans floor
I'm diving down with all my gear
In search of treasure, para mi corazon
Take you to the forest

Let you feel the raindrops falling down
Seeping through your redscales
Eliminate the faucet
Eliminate the need for water
Replace it with a safe shell
Don't wanna see you floating upside down
On the top of the bowl when I
Come round to visit you
Don't wanna see you floating upside down
No girl
Need you there, Need you there, Need you there
Ooh Release that air
(I'm treading water with my oars
Glass galleons anchored, oceans floor
I'm diving down with all my gear
In search of treasure, para mi corazon)
Take you to the forest

Let you feel the raindrops falling down
Seeping through your redscales
Eliminate the faucet
Eliminate the need for water
Replace it with a safe shell
