

# Forest

## Pascal Pinon

Water on my skin  
I've been listening  
To the weather report  
Hoping that I hear some  
News of recovery  
But nothing reaches my ears  
I'm waiting and the years keep passing  
Foreign stand in the dark  
Where we can see is stars  
Try to find a way home  
Realized we don't belong anywhere better  
Than in the arms of each other  
We took each other in  
You were my heroin  
We were flying But then falling I was magnetised to something in your eyes Now, mine are looking - tears, tears,  
tears Water on my face  
I know I've lost the race Someone has my place  
It's a hopeless case If I could cross the ocean in my head  
I'd be there in your arms So go as though I've never been gone  
In the forest place  
We took each other in  
You were my heroin  
We were flying  
But then falling  
I was magnetised to something in your eyes  
Now, mine are looking - tears, tears, tears
