

Together We Are One

Delta Goodrem

Here we are sharing our lives
We made it through the good and bad times
And still we stand with hope in our hearts
No matter what we will play our part
And now we've come so far
One chance to touch a star
Go higher and higher
Find your guiding inspiration
In a place where dreams are made
With a lifetime's preparation
It's no time to be afraid
Put our differences behind us
While we shine like the sun
See what we've all become
Together we are one
Deep inside your heart and soul
You've worked so hard to reach your goal
With every step with every breath
You gave it all till there was nothing left
Seek out the strength to win
No thoughts of giving in

Go higher and higher
Find your guiding inspiration
In a place where dreams are made
With a lifetime's preparation
It's no time to be afraid
Put our differences behind us
While we shine like the sun
See what we've all become
Together we are one
Find your guiding inspiration
In a place where dreams are made
With a lifetime's preparation
It's no time to be afraid
Put our differences behind us
While we shine like the sun
See what we've all become
Together we are one

See what we've all become
Together we are one
