

# From Beyond the Grave ('90 Demo)

## Ancient Rites

[Bonus Track] My body is blown  
My soul is worthless  
This keeping in love with you

Forever and above all From beyond the grave Just as I promise you who ever was alive  
Death will take away

My heart is haunting for the flesh  
Forever is it you From beyond the grave You will haunt it now

All I need is to follow the death From beyond the grave My heart is looking for the death  
From beyond the grave  
It shows me to go to hell
