

# Dad's Bad News

**NOFX**

Don't believe a word your grandfather says  
He's been classified Grade 'A' psychotic  
You can see it from the hole in his head  
A saner man would have used a bigger gun Degeneration, ahh  
The lunatic clause was written for you The story spoken is a story unheard by you  
So listen, 'cause it's unbelievable  
A certain trait's passed while centuries turned  
This faulty gene has been a family heirloom Degeneration, ahh  
The lunatic clause was written for you No simple way to tell you, Son  
We share the same red tainted blood  
I'm gonna kill me, you're gonna kill you  
Killing you Don't believe a word your grandfather says  
Don't believe a word your grandfather says  
Don't believe a word your grandfather says  
He's a psychotic, Grade 'A' psychotic Degeneration, ahh  
The lunatic clause was written for you
