With The Stars

Wave

La La La La...There is a place in outerspace I wanna go
No crime scenes, no magazines or TV showsBridge:
Jump in the car, right where you are
The best is yet to come
Right off the ground, Speed of sound
And we're goneChorus:
Now we'll ride with the stars [with the stars]
Could we be very far [yeah]Far from this place we'll win the race
The path is clear
We'll settle down, no one around
Nothing to fear(Bridge)(Chorus)???La La La La...(Chorus till fade)
