

Tainted

Swing Out Sister

Always together
Together but always alone
If living's a sentence
What kind of existence is this one?

The feelings are there
But our hearts have been missing for so long
There's nothing to share
We've been going nowhere for too long

Tainted
Words that weren't intended to be said
Tainted
Though your pride fights to the bitter end

Always together
Temptation has torn us apart
Lies last forever
The only way out is a clean start

Tainted
Words that weren't intended to be said
Tainted
Though your pride fights to the bitter end...
