

# How to Fuck a Republican

## Mike Doughty

She got on the train out in cold cos cob  
the air turned to music just as she walked on  
she was super smart and she was sensible  
heirloom pearls on clavicles floor of her office way after dark  
empty door on 86th and park  
backrow of a movie near the stock exchange  
in between cars on the 8:16 You may ask "what are girls like?"  
Girls are soft and they smell nice  
Girls like flowers and they just might be nice to you. she spoke of bonds and of bank accounts  
numbers turn to to babble when i ate her out  
she said i must get out before the bell rings  
she kissed my neck and gathered up her things floor of her office way after dark  
empty door on 86th and park  
backrow of a movie near the stock exchange  
between cars on the 8:16 you may ask "what are girls like?"  
girls are soft and they smell nice  
girls like flowers and they just might be nice to you
