

I'll Find You

Hundred Reasons

what could've happened to
take what's become of it
choices that he had made
moulds to most of it
but to hide in the shade
will keep the weather out
and to crawl into
the hole that hides you now he's hidden it all just to cover his tracks
sutured what could be described as a fact
taken the trail that leads will find you, find you back to the start of it
before it will be changed
if it's a little weird
well then dig in a bit
it's more than the sum
of all the separate parts
suffer the thoughts i had
that you will take to hear he's hidden it all just to cover his tracks
sutured what could be described as a fact
taken the trail that leads will find you, find you fail safe always tends to try
and make way while you watch and wait
for those to take it on themselves
[x2] he's hidden it all just to cover his tracks
sutured what could be described as a fact
taken the trail that leads will find you, find you i'll find you
