

# Law of the Land

## The Undisputed Truth

Law of the land  
Well, well, well, well  
Some people are always heaven made  
Some people will live impermanent for the rest of their days  
Time marches on  
Yesterday is better than tomorrow  
Life is uncertain, let me hear you say 'yeah'  
That is that, oh yes it is  
There'll be days of sunshine and laughter  
But don't forget you will have to shed some tears - oh  
It's the law of the land - my brother - oh  
Whether you like it or you'll understand - ah hey hey  
It's the law of the land - hey hey hey hey  
'Cause made by almighty men  
Live by the good book if you're able  
You must play your cards on top of the table  
When you gamble you either win or lose  
In life's ev'rybody's got to pay some dues - well  
It's the law of the land - well well well  
Whether you'll like it or you'll understand - you can't change it  
It's the law of the land - ah-how  
'Cause made by almighty men - oh hey  
Hey, it's the law, the law of the land  
Whether you'll like it or you'll understand  
It's the law, the law of the land  
'Cause made by almighty men  
A teacher man can't be found  
Until you find yourself - think about it  
You might not like being, well you ought, but you'd better start like it  
But you sure can't be nobody else  
In other words: I can't be you - ain't no quit, yeah - you can't be me  
Well well, that's all with you, my sister an' brother  
And that's the way that good life meant to be - hey-ho  
It's the law of the land - well  
Whether you like it or you'll understand - say say  
It's the law of the land - hey yeah oh  
'Cause made by almighty men  
Look at here  
The tools of a ???man's day has got him by corrupt???

For your own protection your Gods you must love  
What goes around comes around  
And what goes up, yeah, must come down - aha  
It's the law of the land - well well well well  
Whether you like it or you'll understand  
It's the law of the land - well well well

'Cause made by almighty men - ah!It's the law of the land - ev'rybody else say  
Whether you like it or you'll understand ...
