Taking Back Control

Sparta

[intro]

This home,
This place,

It turns us back in time and space.
We hope,
You pray,
But today is still today.

Oh we ran ourselves,
Ragged and,
All these broken backs,
Tragic.

We try, and you failed.
Another mark you left in Hell.
And this cut, will run,
But the guilt has just begun.

Oh we ran ourselves,
Ragged and,
All these broken backs,
Tragic.

Future needs,
All these words conceit.
Don't let it go,
We're taking back control.
Future needs,
All these wasted seeds.
Don't let it go,
We're taking back control.

This hole, you tore
Left blood on every door.
We hope, you find
Tragedy will change your mind.

Oh we ran ourselves,

Ragged and,
All these broken backs,
Tragic.

The future bleeds,
All these words conceit.
Don't let it go,
We're taking back control.
Future needs,
All these wasted seeds.
Don't let it go,
We're taking back control!
Take control!

[instrumental]

The future bleeds,
All these wasted seeds.
Don't let it go,
We're taking back control.

Future needs,
All these wasted seeds.
Don't let it go,
We're taking back control!
