

Feels (Jai Wolf Remix)

[kiiara](#)

And I got way too many feels, way too much emotion
I don't even know what's real, I just say fuck it, keep on going
And I get deeper, I get deeper, yeah I feel I'm rolling
I can see you, yeah I see you
I don't know I think I'm rolling
Yeah it's way too many feels, way too much emotion
I don't even know what's real, I just say fuck it, keep on going
And I get deeper, I get deeper, yeah I think I'm rolling
I can see you, yeah I see him
I don't know I just keep on going And I got way too many feels, way too much emotion
All this Xans inside my body, I say fuck it, keep on drowning
You can bring a juice I'll match you
Yeah you mix it, pour the potion
I don't know who you are, but I'd dive into your ocean
Yeah you say you smoking grams, I'm smoking into the Grammys
You say you got them bars, but all I see is candy
Still you came through so low-key, think you understand, I don't know me
Still I get along with your best friends, even better with your family I got way too many feels, way too much
emotion
I don't even know what's real, I just say fuck it, keep on going
And I get deeper, I get deeper, yeah I think I'm rolling
If you see him, yeah I see him
I don't know I just keep going Yeah I got way too many feels
Way too many feels
You came through so low-key
You came through so low-key
I get along with your best friends, even better with your family Yeah I got way too many feels
Way too many feels
You came through so low-key
You came through so low-key
I get along with your best friends, even better with your family I got way too many feels
Way too many feels And I got way too many feels, way too much emotion
I don't even know what's real, I just say fuck it, keep on going
I got all I need, you don't know what I mean
Yeah we pour up 'til we go up
And I got way too many feels, not enough to forfeit
So many fuckin' bands, so you know we finna blow it
We be faded when I'm sober, sober when I'm faded
Over scrutinized by all your counterparts there's no debating And I got way too many feels, way too much

emotion

All this Xans inside my body, I say fuck it, keep on drowning

You can bring a juice I'll match you

Yeah you mix it, pour the potion

I don't know who you are, but I'd dive into your ocean

Yeah you say you smoking grams, I'm smoking into the Grammys

You say you got them bars, but all I see is candy

Still you came through so low-key, think you understand, I don't know me

Still I get along with your best friends, even better with your family And I got way too many feels, way too
much emotion

I don't even know what's real, I just say fuck it, keep on going

And I get deeper, I get deeper, yeah I feel I'm rolling

I can see you, yeah I see you

I don't know, I just keep on going Yeah I got way too many feels

Way too many feels

You came through so low-key

You came through so low-key

I get along with your best friends, even better with your family Yeah I got way too many feels

Way too many feels

You came through so low-key

You came through so low-key

I get along with your best friends, even better with your family Yeah I got way too many feels

Way too many feels
