Can't Do That

[Dead Moon](#)

Your situation's on the top of my head
I don't know what to do
I know it's painful but it's got to be said
These things you're going through
Oh, you can't do thatYou always had a way of keeping things in it's just the way you are
It's only lately I don't know where you've been
I'm afraid you'll go to far
Oh, you can't do thatI miss the way we were before we got lost
It will never come again
I'm only trying to get the wires uncrossed
Before it all ends
