

A Devil In the Woods

The Gun Club

I may be
just like Bill
I'm up on the hill
and I can't get down I cry because you don't know
I cry because you will never know just how dark can an animal be?
how dark can an animal be? Dark like darkness
dark like a devil out in the woods now I saw the light
that just buzzed
I saw the light
but, my brain just buzzed I cry because you never know
I cry because you will never know just how black can an animal be?
how black can an animal be? Dark like darkness
dark like a devil out in the woods now Train
Train I ride
train I ride
ride on me
ride on me
