

She Gets Around

Buva

She's in and out, she's getting around,
She can't stay away, she can't stay away.

Up and down, from city to town,
She can't stay away, she can't stay away. You know it started in a crowd,

I was scared i could get out,
Another time, another place,
Different people, lonely town.

So i waited for a while, never knowing what to do...

I want this memory to fade away cause its you!She's in and out, she's getting around,
She can't stay away, she can't stay away.

Up and down, from city to town,
She can't stay away, she can't stay away. I know that you can't control it,
This part of my life - she needs it.

I wanna forget those things you do.I wonder where she is tonight? I'm running out of time.
Take me in and let me find I want justice for this crime!

So where were you all last night?
You drive me insane i don't know why!
You know your nothing in my life,
Your just a joke to the end!She's in and out, she's getting around,
She can't stay away, she can't stay away.

Up and down, from city to town,
She can't stay away, she can't stay away. I know that you can't control it,
This part of my life - she needs it.

I wanna forget those things you do.So she's in and out, she's getting around,
Fighting for attention now.

And there came a time that once in my life
I regret ever meeeting you. (ooooooo)She's in and out, she's getting around,
She can't stay away, she can't stay away.

Up and down, from city to town,
She can't stay away, she can't stay away. I know that you can't control it,
This part of my life - she needs it.

I wanna forget those things you do.She's in and out, she's getting around,
She can't stay away, she can't stay away.
Up and down, from city to town,

She can't stay away, she can't stay away. She's in and out, she's getting around,
She can't stay away, she can't stay away.
Up and down, from city to town,
She can't stay away, she can't stay away.
