

# Represent (Rocked Out Mix) [Bonus Track]

## Weezer

I'm sick and tired of everybody  
Trying to tell me what to do  
If I'm in need of your advice  
Then surely I would come to you I didn't get in this position  
Just by happenstance  
I worked my bones beyond my limit  
Just to have half a chance It matters how you play the game  
It matters that you can take the pain  
You don't wanna lie, steal  
Or cheat your way to the top It matters what your people think  
You represent your family  
Well, that's just one more reason to see  
That it matters whether you win or lose Why don't we see who is the wizard  
And play some one on one?  
I think you'll find me sympathetic to ya  
When I've won It seems you've got the brawn  
To beat me if this was all it takes  
But I've got skills to pay the bills  
And punish each of your mistakes It matters how you play the game  
It matters that you can take the pain  
You don't wanna lie, steal  
Or cheat your way to the top It matters what your people think  
You represent your family  
Well, that's just one more reason to see  
That it matters whether you win or lose One hundred years from now  
They'll look back on this day  
Where you going to be?  
And what are they going to say? I see my name in lights  
The people call my name  
It's all up to you  
Will you find your way? It matters how you play the game  
It matters that you can take the pain  
You don't wanna lie, steal  
Or cheat your way to the top It matters what your people think  
You represent your family  
Well, that's just one more reason to see  
That it matters whether you win or lose It matters what your mother thinks  
You represent your family  
Well, that's just one more reason to see

That it matters whether you win or lose
