

# Scars

## Boyce Avenue

Wooah, yeah yeah  
yeah  
Jade is not alone  
But all he can feel is lonely  
His bedroom doesn't feel like home, yeah  
The sounds posts through the walls  
The hate from a man who only  
Knows how to love by casting stones, yeahAnd through it all do we see or feel it  
His tears dry but the years reveal it  
We stay blind to the sounds we see  
When the truth could set them free  
Time to think it over  
Beyond the pain and disregard  
We got to see through these scars  
Love will bring use closure  
If we can be who we are  
We gotta see through these scars  
Oh oh yeah  
Oh oh yeahSarah takes the blame  
For a time that is gone forever  
Her past is an everlasting maze, yeah  
And in this role she plays  
Against who is in the mirror  
It's a constant struggle everyday, yeahAnd through it all do we see or feel it  
His tears dry but the years reveal it  
We stay blind to the sounds we see  
When the truth could set them free  
Time to think it over  
Beyond the pain and disregard  
We got to see through these scars  
Love will bring use closure  
If we can be who we are  
We gotta see through these scars  
Oh oh yeah  
Oh oh yeahAnd through it all do we see or feel it  
His tears dry but the years reveal itTime to think it over  
Beyond the pain and disregard  
We got to see through these scars  
(We gotta see, we gotta see)

Love will bring use closure  
If we can be who we are  
We gotta see through these scars  
Oh oh oh ohOh oh yeah  
Oh oh yeahWe gotta see through these scars  
(We gotta see through these scars)Oh oh yeah  
Oh oh yeahWe gotta see through these scars  
(Through the scars)
