

# Still Talkin' 'bout You

Johnny Reid

I could be drivin in my car  
I could be drinkin in every downtown bar  
Every conversation seems to go your way  
It doesnt matter if Im all alone  
Or with a friend on the telephone  
Or in a crowd of a thousand people I still hear your name Well its wrong, but its amazing after all that you put  
me through  
Well, i guess I must be crazy Still talkin bout you I thought all I needed was a little time  
to learn to live with what you left behind  
Girl Im feelin like a fool who hasnt learned a thing  
Babe I bet your ears must be burnin by now  
wherever you are stand up and take a bow  
cause tonight Im just trying to get a ride with you standin in the way Well its wrong but its amazing  
after all you put me through  
well i guess i must be crazy still talkin bout  
your eyes  
your smile  
the way you make me feel inside  
your touch  
was too much  
how can i ever give you up well its wrong but its amazing  
after all you put me through  
well i guess i must be crazy  
well its wrong but its amazing  
after all you put me through  
well i guess i must be crazy still talking bout you  
still talkin bout you baby  
still talking talkin bout you  
still talking bout you baby  
im still talking bout  
your eyes  
your smile  
your touch  
too much  
i dont think im gonna give up talkin bout you  
still talking bout you (x3)
