

The Definition

Brandy

The definition
(The definition)
Real good
DarkchildI dropped all that baggage
Let go off that habit
The pain you can have it
Now I'm content with meI'm lovin' this kid
And I gotta admit
Feels like the beginnin'
Now I'm content with meIt's hard to explain it
Been through it, you name it
The heartache kept breakin'
The shamed played that gameBut I, couldn't seem to win
I started to think
Somethin' was wrong with me
'Til I was finally introduced to happyI made the greatest discovery of mankind
You define the existence of love
And I found it in you
Searched my whole life through
So rare but so true
The definition of love is youThe definition baby, is you
The definition baby, you areI traded that frown
And bought me a brand new smile
I'm wearin' it proudly
'Cause now I'm content with meNo longer uncertain
I'm sure of the verdict
I'm free and love it
And now I'm content with meIt's hard to explain it
Been through it, you name it
The heartache kept breakin'
The shamed played that gameBut I, couldn't seem to win
I started to think
Somethin' was wrong with me
'Til I was finally introduced to happyI made the greatest discovery of mankind
You define the existence of love
And I found it in you
Searched my whole life through
So rare but so true
The definition of love is youThe definition baby, is you

The definition baby, you are 'Cause I've been diggin' for years
Barely see pass the tears
'Cause I thought my heart had disappeared
But until you came into my life
Made me a new, showed me the truth I made the greatest discovery of mankind
You define the existence of love
And I found it in you
Searched my whole life through
So rare but so true, the definition of love is you I made the greatest discovery of mankind
You define the existence of love
And I found it in you
Searched my whole life through
So rare but so true, the definition of love is you The definition baby, is you
The definition baby, is you
The definition baby, is you
The definition defined by you
